ELECTRICAL COMMUNICATION

INDEX TO VOLUME VII

1928-1929

ELECTRICAL COMMUNICATION

Volume VII, 1928–1929

INDEX

		Page
Allocation of European Broadcast Wavelengths—Some Points of View, by *Siffer Lemoine*	January, 1929	200
Appleyard, Rollo: Pioneers of Electrical Communication—Georg Simon Ohm—VII	July, 1928	3
Appleyard, Rollo: Pioneers of Electrical Communication—Oliver Heaviside—VIII	October, 1928	71
Artificial Traffic Machine for Automatic Telephone Studies, An, by *E. A. Elliman* and *R. W. Fraser*	October, 1928	126
Australia First to Use Type C-2-F Carrier System, by *J. S. Jammer*	July, 1928	62
Bologna Rotary Automatic Exchange, by *Carl Chapperon*	January, 1929	187
Broadcasting in Sweden, Norway and Denmark, by *A. Taranger*	July, 1928	18
Broadcasting Station SQIG	January, 1929	210
Brussels International Telegraph Conference, September, 1928	April, 1929	280
Budapest Telephone Area, by *Jenö Rédl*	April, 1929	221
Capek, A.: Modern Manual C. B. Switchboards	January, 1929	147
Carrier Current Systems and Their World-Wide Application, by *J. S. Jammer*	April, 1929	266
Chapperon, Carl: The Bologna Rotary Automatic Exchange	January, 1929	187
Christiansen, Kay: Kalundborg Radio	July, 1928	24
Collard, John: A Theoretical Study of the Articulation and Intelligibility of a Telephone Circuit	January, 1929	168
Controlling "Quality" in a Broadcasting System, by *E. K. Sandeman*	July, 1928	33
Deakin, G.: The Rotary Automatic Telephone Introduced Into Paris	October, 1928	95
Design of Phase Compensating Networks (Phase Compensation—I), by *A. R. A. Rendall*	April, 1929	316
Electrical Communication and Progress in the Irish Free State, by *L. J. Keogh*	July, 1928	56
Elliman, E. A., and *Fraser, R. W.:* An Artificial Traffic Machine for Automatic Telephone Studies	October, 1928	126
Famous Lodestone, A	July, 1928	68
Fraser, R. W.: Sloane Exchange, London	October, 1928	109
Fraser, R. W., and *Elliman, E. A.:* An Artificial Traffic Machine for Automatic Telephone Studies	October, 1928	126
Gill, F.: International Telephony	January, 1929	190
Handwörterbuch des Elektrischen Fernmeldewesens	April, 1929	240
Heaviside, Oliver (Pioneers of Electrical Communication—VIII), by *Rollo Appleyard*	October, 1928	71
Hubbard, F. A.: South American Transcontinental Telephone Circuits Connecting Argentina, Uruguay and Chile	April, 1929	303
Inada, Sannosuke: Tokyo and Kobe Toll Cable	April, 1929	293
International Telephony, by *F. Gill*	January, 1929	190
Jammer, J. S.: Australia First to Use Type C-2-F Carrier System	July, 1928	62
Jammer, J. S.: Carrier Current Systems and Their World-Wide Application	April, 1929	266
Kalundborg Radio, by *Kay Christiansen*	July, 1928	24
Keogh, L. J.: Electrical Communication and Progress in the Irish Free State	July, 1928	56

		Page
Lemoine, Siffer: Allocation of European Broadcast Wavelengths —Some New Points of View	January, 1929	200
McPherson, B. W. L.: Radio Reception and the Broadcasting System	July, 1928	39
Mirk, D. B.: A New High Power Radio Broadcasting Equipment	April, 1929	241
Modern Manual C. B. Switchboards, by *A. Capek*	January, 1929	147
New High Power Radio Broadcasting Equipment, A, by *D. B. Mirk*	April, 1929	241
Nyquist Method of Measuring Time Delay $\frac{da}{d\omega}$ (Phase Compensation—III), by *E. K. Sandeman* and *I. L. Turnbull*	April, 1929	327
Ohm, Georg Simon (Pioneers of Electrical Communication—VII), by *Rollo Appleyard*	July, 1928	3
Page, W. E.: Public Address Developments	January, 1929	141
Phase Compensation (I)—A Simple Account of Phase Compensation, by *E. K. Sandeman*	April, 1929	309
Phase Compensation (II)—Design of Phase Compensating Networks, by *A. R. A. Rendall*	April, 1929	316
Phase Compensation (III)—The Nyquist Method of Measuring Time Delay $\frac{da}{d\omega}$, by *E. K. Sandeman* and *I. L. Turnbull*	April, 1929	327
Pioneers of Electrical Communication: Georg Simon Ohm—VII, by *Rollo Appleyard*	July, 1928	3
Pioneers of Electrical Communication: Oliver Heaviside—VIII, by *Rollo Appleyard*	October, 1928	71
Public Address Developments, by *W. E. Page*	January, 1929	141
Radio Reception and the Broadcasting System, by *B. W. L. McPherson*	July, 1928	39
Rédl, Jenö: Budapest Telephone Area	April, 1929	221
Reeves, A. H.: A Solution of the Problem of the Broadcasting Microphone	April, 1929	258
Rendall, A. R. A.: Design of Phase Compensating Networks (Phase Compensation—II)	April, 1929	316
Riley, T. N.: Sheath Losses in Single-Core Cables for Three-Phase Transmission	January, 1929	211
Rotary Automatic Telephone Introduced Into Paris, by *G. Deakin*	October, 1928	95
Sandeman, E. K.: Controlling "Quality" in a Broadcasting System	July, 1928	33
Sandeman, E. K.: Simple Account of Phase Compensation, A (Phase Compensation—I)	April, 1929	309
Sandeman, E. K.: Transformers as Band Pass Filters	April, 1929	282
Sandeman, E. K., and *Turnbull, I. L.:* The Nyquist Method of Measuring Time Delay $\frac{da}{d\omega}$	April, 1929	327
Sheath Losses in Single-Core Cables for Three-Phase Transmission, by *T. N. Riley*	January, 1929	211
Simple Account of Phase Compensation (Phase Compensation—I), by *E. K. Sandeman*	January, 1929	309
Sloane Exchange, London, by *R. W. Fraser*	October, 1928	109
Solution of the Problem of the Broadcasting Microphone, by *A. H. Reeves*	April, 1929	258
South American Transcontinental Telephone Circuits Connecting Argentina, Uruguay and Chile, by *F. A. Hubbard*	April, 1929	303
Taranger, A.: Broadcasting in Sweden, Norway and Denmark	July, 1928	18
Telephone and Telegraph Statistics of the World	October, 1928	134
Theoretical Study of the Articulation and Intelligibility of a Telephone Circuit, by *John Collard*	January, 1929	168
Tokyo and Kobe Toll Cable, by *Sannosuke Inada*	April, 1929	293
Transformers as Band Pass Filters, by *E. K. Sandeman*	April, 1929	282
Turnbull, I. L., and *Sandeman, E. K.:* The Nyquist Method of Measuring Time Delay $\frac{da}{d\omega}$	April, 1929	327
